

To install Fooocus, you'll need this link. I recommend creating a Google account and logging into it via the Google Chrome browser before clicking the link

https://colab.research.google.com/github/lllyasviel/Fooocus/blob/main/fooocus_colab.ipynb

If the link doesn't work, you can always find the current link to Fooocus by scrolling down on the following page:

<https://github.com/lllyasviel/Fooocus?tab=readme-ov-file>
